EDUCATION

Indus University   **Nov 2022 – present**
Bachelor of Technology in Information Technology   *Ahmedabad, Gujrat*
  CGPA: 9.57

K. J. Somaiya Polytechnic   **Aug 2019 – May 2022**
Diploma in Computer Engineering   *Mumbai, Maharashtra*
  CGPA: 8.9

EXPERIENCE/INTERNSHIPS

AWS Cloud Computing Intern   **June 2023 – July 2023**
NIVIDATA   *Remote*
- Developed foundational skills in AWS Cloud, focusing on cloud storage, networking, and security.
- Worked with cloud computing tools to optimize resource management and scalability for project needs.
- Used AWS Cloud for managing, improving performance & reusability.

Artificial Intelligence Intern   **June 2024 – June 2024**
INDUS UNIVERSITY   *Remote*
- Built practical knowledge in artificial intelligence, including machine learning models, neural networks, and data-driven insights.
- Contributed to small AI-driven projects that explored supervised and unsupervised learning models.

Java Programming Intern   **Sept 2024 – Oct 2024**
CODSOFT   *Virtual*
- Developed and deployed Java applications, focusing on core Java, object-oriented programming principles, and project workflows.
- Enhanced application efficiency through code optimization, ensuring robust, maintainable code.

PROJECTS

Crypto Web / *Flask, SQLite3*   **Sept 2024 - Oct 2024**
- Developed a cryptocurrency price tracking web application with real-time data updates.
- Designed a user-friendly interface and interactive charts to enhance the user experience.

Sales Data Analysis | *Python (Pandas, Matplotlib)*   **Aug 2024 - Sept 2024**
- Conducted comprehensive data analysis, including data cleaning, visualization, and insights generation.
- Leveraged Pandas and Matplotlib to identify trends and patterns for informed decision-making.

Grocery Store Billing Software | *Tkinter, SQL*   **Nov 2021 - Dec 2021**
- Built a GUI-based billing software for a grocery store using Tkinter and SQL, enabling efficient bill generation and transaction tracking.
- Integrated a SQL database for effective data management and storage.

SKILLS

Programming Languages: Python, Java, SQL
Web Technologies: HTML, Jinja, CSS
Technologies/Frameworks: Flask, Django , Linux, GitHub, Power BI, Wireshark, Postman, Figma
Non-Technical: Leadership, Teamwork, Communication, Public Speaking
